Double Glazed
Circle Cutout Template Examples

A&E GLAZING

	Glass Width:
	Glass Height:
	Glass Type:
	Number of Cut holes :
	Hole Diameter (If consistent):
	Reference:
	Notes:

- All measurments to be in mm
- All measurments to be to the centre of the hole unless specified.
- Template doesn't have to be used as long as all details are on the drawing.
- Hand drawing is fine as long as measurments are clear.
- If holes are different sizes and distances, please detail this.
- Please ensure the number of holes needed is the same as ordered to prevent manufactuing hold ups.
- Any problems or questions please give us a call.
